### PRESIDENT AT THE CAMP

Chief Executive Now At Montauk Point,

PARTY GIVEN A MILITARY WELCOME BY SOLDIERS.

Camp Wikoff, Montauk Point, Sept. 3.—Special—President McKinley and Secretary of War Alger arrived in camp this morning to make a personal investigation of the camp. Secretary Alger refused to be interviewed by a Scripps McRae Press association reporter, but said all would be made clear in due time.

The president and Secretary Alger were enthusiastically received at the camp. The Third cavalry was drawn up in line by the station platform to escort the party from the platform to the camp. Generals Wheeler, Chaffee, Williston, Ludlow, Ames, Sumner and all the division commanders with full staffs in uniform were also there. After shaking hands with the generals, the president and his party visited the camp, going through detention camp hospitals, and all the other parts of the camp and camp grounds.

The president visited General Shafter's tent and found the general in bed suffering with malaria. He spoke to the general for a few moments, and questioned him about the work at Santiago. The president was then driven to the general hospital. All the nurses and doctors had assembled in front of the hospital to greet him. Not a ward or a kitchen escaped his eye. Beginning at the officers ward he went through them one by one, with his hat in hand, speaking kindly in a soft voice to the sick and wounded.

### Muster Out at Home.

New York, Sept. 3.—Special—General Miles' plan to have the returning volunteers who participated in the Porto Rican campaign go into camp in this city has been upset by Secretary Alger. The troops have been ordered sent direct to their states to be mustered out. The army officers here think this is but another phase of the Alger-Miles controversy, although it is admitted that Alger's plan is the best.

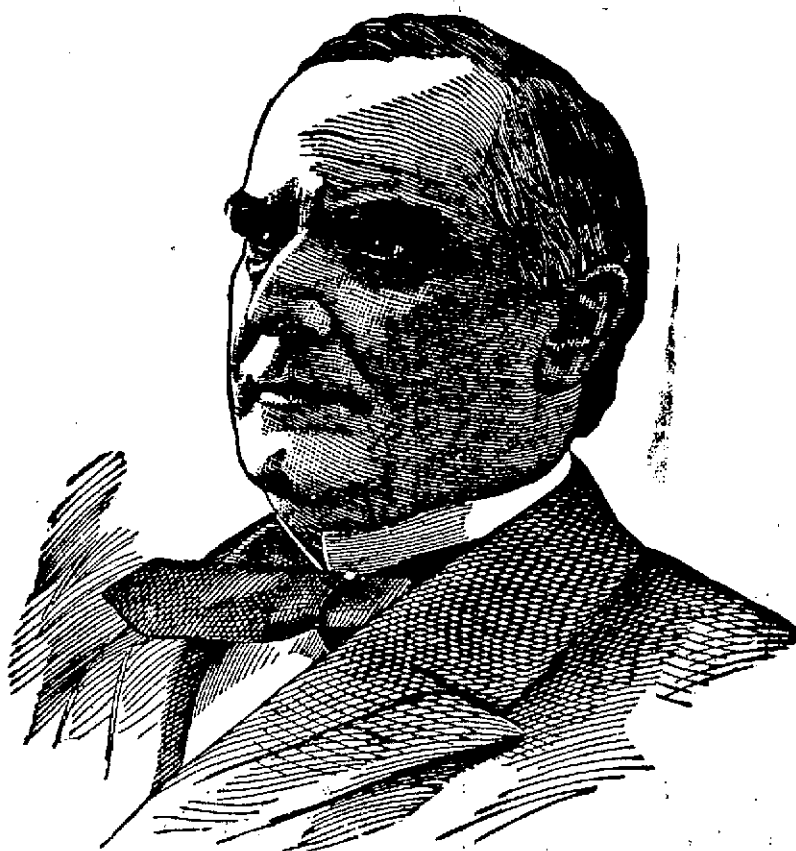

### Raise Spanish Boats.

Washington, Sept. 3.—Special—Commodore Watson has cabled from Santiago that the cruiser Marblehead has raised the Spanish gunboat Sandoval which was sunk in Guantanamo harbor by the American ship during the war. The vessel will be added to the American navy.

### Order Out a Battery.

Chattanooga, Sept. 3.—Special—The Twenty-eighth Indiana battery has been ordered to Indianapolis to be mustered out.

HE INSPECTS THE SOLDIERS' CAMPS IN PERSON

PRESIDENT WILLIAM McKINLEY.

### PHILIPPINOS ARE WITH US

Favor Annexation to the United States.

INSURGENT LEADER AGAINST THE PLAN--WAR GOSSIP.

Manila, Sept. 3.—Special—One of General Aguinaldo's confidential advisers states that the purpose of the leading men of the Philippines at present is to petition the United States asking for annexation to that country. Gen. Aguinaldo is not a party to the scheme, it is said, as he still dreams of a republic under an American protectorate. The intelligent natives, however, believe that annexation is a truer road to liberty and are therefore in favor of that plan even if their leader does not agree with them.

### Spanish Peace Commission.

Madrid, Sept. 3.—Special—Montero Rios has agreed, it is said, to become a member of the Spanish peace commission. He is the president of the senate, and chief of the liberal party. Tetuan, head of the conservative party, refuses a commissionership and will not be induced to reconsider his decision.

### MANY ARE KILLED BY THE ELEMENTS

STORM SPREAD DEATH ON EVERY HAND.

Dispatches From Atlanta Say That the List Cannot But Be Very Large When Complete Reports Are Received—Many Vessels Are Cast Away.

Atlanta, Sept. 3.—[Special]—The reports received from all parts of the state reveal an alarming state of affairs as the result of the recent storm. At Savannah and Brunswick great damage was done by the elements. Six schooners foundered off Savannah and it is almost certain that the crews went down with them. It is believed that great loss of life will be discovered when complete returns from the towns are received.

### CLEAR NILE'S BANK WITHOUT ANY LOSS

BRITISH GUNBOATS ROUT THE DERVISHES.

All of Their Fortifications Are Demolished And Not One Englishman Was Slain—Foreign Office Receives the News Today and Press Reports Corroborate It.

London, Sept. 3.—[Special]—The war office has received a message saying British gunboats cleared the right bank of the Nile above Nasr of Dervishes and demolished the forts on Tutul island without suffering any damage from the enemy's fire. The Evening Telegram's special says that all the forts of Omdurman were destroyed without casualties to the British forces.

### CITY IN GALA ATTIRE

Cincinnati People Get Ready To Entertain the Veterans of the Civil War Right Royally.

Cincinnati, Sept. 3.—[Special]—This city is assuming its gala attire in preparation for the annual encampment of the Grand Army of the Republic. Decorations are going up all over the city and hundreds of people have already arrived to take part in the meeting.

Milwaukee, Sept. 3.—The special train for the G. A. R. encampment at Cincinnati next week will start under the auspices of the department headquarters and E. B. Wolcott post, No. 1, G. A. R. from the Union station at 4 p. m. Monday, Sept. 3, reaching Chicago at 6:15 and leaving for Cincinnati by the Pennsylvania system at 7:30 p. m. The train will reach its final destination at 7 o'clock Tuesday morning. The railroads have made a one fare round trip from points in the state to Chicago and from there a round trip rate of \$6 will be made to Cincinnati.

Before the Wisconsin party returns north many will probably visit Chattanooga as the Queen & Crescent line has made a very low rate for the round trip between there and Cincinnati.

### A NEW STORAGE WAREHOUSE

Large Building Just Completed for C. W. Schwartz.

A fine brick absolutely fire-proof warehouse 50 feet long, 35 feet wide and 20 feet high, has just been completed by the Skelly estate for Charles W. Schwartz, and will be used by him for storage purposes. Mr. Schwartz's storage business has grown to such an extent that his present quarters were far too small to accommodate it, so this new building was erected expressly for him. The construction was looked to especially with a view of making it particularly safe against risk of fire, and the lowest insurance rate has been secured on it, showing that the insurance people believe it to be fire proof. Storage prices on goods of all kinds are reasonable, and orders can be left at Smith's pharmacy or at residence, 302 Locust street. Telephone 257.

Truth wears well. People have learned that De Witt's Little Early Risers are reliable little pills for regulating the bowels, curing constipation and sick headache. They don't gripe. People's Drug Co., corner East Milwaukee street.

Steuenville, O., Sept. 3.—[Special]—John Tubbs, aged seventeen, confessed today that he murdered little Mary Wesley, whose body was found beneath a pile of stones and brush in the woods last Saturday. He admitted that he killed the girl by striking her on the head with a stone because she refused to stop when he called to her to do so. Public feeling runs high.

Man Who Passed Bogus Checks Has Not Yet Been Captured

O. Holt, the forger, who worked three of the local business firms is still at large and the police are in the dark as to his whereabouts. George K. Colling, the contractor, whose name Holt forged, says that the forger called on him at his place of business and inquired of him how much it would cost to build a house. After Mr. Colling informed him that it depended on what kind of a house he wanted, Holt sat down and with a pencil drew out a rough plan. He said the house was for a Mrs. Jennings who resided at Atton. After asking Mr. Colling if his name was not George K. Colling, saying he would call again and let him know as to his decision.

## WORK OF CHURCH IS TO FILL THE DAY

### LOCAL BAPTISTS PLAN FOR ANNUAL GATHERING.

Announcements of Sermon Topics For Sunday—Series of Addresses By Rev. A. C. Kempton—David Parks Compares Mission Work and the War.

A departure of interest in Janesville church work is announced by Rev. Arthur C. Kempton of the Baptist church. Instead of holding the annual meetings of the different organizations, which go to make up the church, at different seasons of the year, they will all be held at one meeting, the date this year being Thursday, Sept. 15.

A nominating committee of the five deacons of the church, A. F. Hall, Washington Kelly, Richard Wiggin, Mark Honeysett and Nathan Dearborn will nominate all the officers for the church and Sunday school. These officers so nominated will be ratified by the church as a whole at this annual meeting, Sept. 15.

The ladies will meet at the church in the afternoon for a social session. Supper will be served from 6 to 7 o'clock in the church parlors. After supper the annual reports of the church, Sunday school and young people societies will be made. This will be followed by a short musical and literary program.

David Parks, a student volunteer, spoke on "Foreign Missions" last evening in the Presbyterian church. He compared the late war with Spain and the great war of Christianity. His comparisons were made on four striking points, prayer, study, apportionments and volunteers, the nation uniting grandly in all these particulars in the struggle for the freedom of an oppressed nation's bodies, but showing carelessness and unwillingness in every particular in the greater struggle for the freedom of men's souls. Mr. Parks illustrated his interesting talk with maps and charts showing among other things the religion of the different countries of the world.

The period of union services is at an end and announcements for special services in the various churches are as follows:

BROADCLOTH GOWN WITH FLOWERED MOIRÉ FROM HARPER'S BAZAR

Broadcloth, which is in great demand for early fall costumes, especially in the various late effects of brown, is the material of a handsome gown made up with rich flowered moiré of new design. While the outlines of many of the French corsages are more severe, there is much diversity in the varied forms of jacket and fancy waists. Plastrons also, in great variety, are continued. The jacket front of this gown laps far to the left side, where it is fastened with three large silver buttons. In this instance the jacket forms a portion of the waist, being sewn in with the shoulder and underarm seams, and opening over the flowered silk plastron. The broadcloth moiré is introduced again, like an inverted V, into the front of the skirt, which is circular in form and is banded

with narrow bias folds in imitation of a shaped blouse, its width at the bottom being four and a half yards. The back may be pleated or gathered. While many of the new skirts are made over a perfectly fitted foundation, the circular models are usually lined throughout in order to preserve their form better.

The sleeve of this gown illustrates one of the newest designs, from which the epaulette has entirely disappeared. Two bias folds cross the close top. This gown is taken from Harper's Bazar, and cut paper patterns can be obtained from that paper.

The hat of brown-tinted felt, rolling high from the face, is effectively trimmed with a cluster of roses and foliage. Quantity of material for gown—5½ yards wool 32 inches wide; 1½ yards silk.

This trophy was won by Sanford Soverhill, of Janesville, in a clean score, killing the entire ten birds, who also took \$27 as first money. The next highest score, eight birds, was reached by six contestants, five more killed seven birds each, and two, six. Arrangements are now being made for a two day's live bird shoot to be given probably Sept. 28 and 29, for which 1,200 birds are needed.

## WRECK OF REGIMENT PASSES IN REVIEW

### WISCONSIN BOYS MAKE A PITIFUL SPECTACLE.

Only Twenty-Five From Company A Were Able to Take Part In the Review—Janesville Lieutenants As Officers of the Day—Routine of Camp Life.

Camp Cuba Libre, Aug. 30—The second division of the Seventh Army Corps passed in review before Gen. Lee and his staff this afternoon. The ceremony should have taken place Saturday but the daily shower was so heavy it was postponed. A light rain though unpleasant, caused a cloudy sky all during the ceremony, making it cool and comfortable for the marching. It was a magnificent spectacle. The troops are fairly well equipped and presented a fine appearance, only marred by the passing of this once proud regiment. Applause and lots of it, greeted us as we did our best. But it is but a wreck of a regiment. For instance we had to accept the kind offer of the fine band of the Ninth Illinois, as our band is too depleted to play. Company A made a brave showing with about twenty-five men in line, but that line was good. I believe an impression was made that will be lasting on all who think we have had no serious sickness if there are any. No company of the First Wisconsin had six full fours and it looked to me that five was quite a showing.

Tomorrow the entire corps parade to about all of the city of Jacksonville and surrounding fifty miles of population. A large crowd is expected, as it will be the last appearance of this body of troops together, unless President McKinley follows the plan of coming here September 15.

Tomorrow is mustering day, and we will answer to our names. The return from the hospital today and one goes.

Musicians Grossman is making an active effort to be transferred to the Rough Riders. Others are thinking of remaining in the service, and figuring on transfers to other troops.

A telegram reported received by the captain of the Madison company, from the mayor of that city, promises us a departure from here in six days.

Private Tousey has been under the weather, and Private Smith is detailed to take his place in the kitchen.

But one officer of the guard is called for these days, the guard being small. Lieut. Baldwin acted yesterday and Lieut. Blood today, in that capacity.

All of the regiment is congratulating Lieut. Hart, of Co. E, (Beloit) who returns to us bringing a bride.

Private Halvorsen is acting as mail man for the hospital litter corps. Corp. Bachholz and Private Fletcher had a pleasant visit with Lieut. Col. Cannon, of Torrey's cavalry the other day. Col. Cannon is an intimate friend of Corp. Buchholz' brother at Salt Lake city.

"Dewey," our dog, "the jolliest fellow of them all," has transferred his affections from the First Sergeant to Private Reynolds, and they are constant comrades. Dewey stands the climate wonderfully well. He promptly took his place with the company on today's review and went through all of the formations without an error.

Private Shaw, reported by northern doctors as having typhoid, surprised us all by returning to duty tonight. He just wouldn't be sick.

The men here are glad to hear of reported good progress towards health of members on furlough.

Privates Sheppard and Karny find their work on the engineering corps rather interesting and a good deal of a snap.

1878—One of the most frightful river collisions on record took place on the Thames at London. The favorite river steamer, Princess Alice, carrying 700 or 800 excursionists, was run down and cut in two by a screw collier; over 700 persons drowned.  
1881—General Ambrose Everett Burnside, commander of the Army of the Potomac at the battle of Fredericksburg, died; born in Indiana 1824.  
1897—The Jackson-Harnsworth aëroplane exploring expedition returned from Franz Josef Land.

## MEN OF THE NEXT HOUSE.

The St. Louis Globe Democrat speaks of one of the duties of republicans as follows:

An important duty fast approaching is that of settling the political complexion of the next, or fifty-sixth congress. The people of the United States have carried through the war with Spain with signal triumph. They have stood shoulder to shoulder as never before in the history of the country. In the approaching election there will be more or less of political division, but the main question for the citizen to decide is how best to secure the fruits of the splendid American victory. Considerably more than half the term of the present administration is yet to come. With it will expire the congress to be elected this fall. So the people within a few weeks must decide whether President McKinley shall have, during the last half of his term, a congress ready to act with him in settling new and serious problems, or one that will block the way whenever a partisan advantage is supposed to be within reach. With the secession of new possessions, embracing several widely separated territories, will arise numerous fresh responsibilities. Shall they be met with the various departments of the government acting in unison or engaged in maintaining a political deadlock?

In addition to the entire House of Representatives to be chosen in November a large number of senators will be named by the many state legislatures elected at the same time. The terms of thirty senators expire next March. There is good reason to believe that the next senate will be republican. As for the next house, the republican prospect is even better, but no effort should be spared to insure the result. Democratic managers are depending on the fact that the opposition has often secured a majority in the middle of administrations. But this is by no means reduced to a law. The exceptions are marked, and this year will emphasize them. President McKinley's administration meets with general approval. He performs his duties in a broad spirit, commanding the admiration of the whole people. He has met a warm crisis with energy, patriotic spirit, and also with prudence. Complete success has crowned the efforts of the nation under his leadership. It would be a strange thing to tie his hands now that the diplomatic duties intrusted to the presidential initiative are of general moment and far more than ordinary complex.

The present house contains 204 republicans, 123 democrats, 37 populists and 3 silverites. The republican majority over all is 51. It would require a loss of more than twenty-five members to put the republicans in the minority. They have excellent reasons for hoping to gain more than twenty-five. Here in Missouri the delegation in the house stands twelve democrats, three republicans, though the republicans in 1896 cast over 45 per cent. of the entire vote of the state. Several republican congressmen will be gained

in Missouri, and the party was never more firmly resolved to use the utmost endeavors to strengthen the hands of the president for the unusual and difficult labors before him. In every state the same feeling should prevail. Not until all is done in this respect that can be done should any republican rest content. The republican party has redeemed the pledges of the national platform with courage, sincerity and ability, and can confidently appeal to the people in November.

## Railroad Men Need Good Overalls...

For a month or more we have been showing the Lightning Jumper and Overall. Every railroad man and machinist who sees the garments wants them.

Their value is recognized at once. The Overalls open at the front instead of at the side and the shoulder straps need never be unbuckled. They lift off and on the shoulders like the suspenders on a pair of trousers. The old style opening and closing at the side leave a gap of several inches for grease and dust to pour through onto the under garments; also the apron of the old style being solid the suspenders have to be attached and detached every time they are worn. The Lightning Overall and Jumper being so snugly closed up it is not necessary for the wearer to keep his top clothing on and thereby making them feel bungle-some. A supporter pulls through the strings on the waist bands of the drawers, and consequently keeps them from slipping down over the hips.

## All Garments Union Made And Bear the Label.

These Jumpers and Overalls were placed before the delegates of the Brotherhood Locomotive Engineers at their convention held in St. Louis, May 11th, 1898, and pronounced as being the most practical they had ever seen and seventy five per cent. of them purchased from one to six suits each for personal use. The Lightning Jumper and Overalls were adopted by the Wabash R'y Co. and their employees as being superior to all other makes. They beat the world as working garments for railroad men and machinists. We are sole Janesville agents.

## GOV. SCOFIELD SAYS DELAY MUST END

DEMANDS THAT WISCONSIN  
TROOPS MOVE.

Wisconsin Executive Tells the Authorities That If He Is Given Permission He Will Have the First Regiment on Its Way Home in a Few Hours.

Washington, Sept. 3.—[Special]—Gov. Scofield, of Wisconsin, called at the war department this morning to arrange for the mustering out of the Second Wisconsin regiment.

The Milwaukee Sentinel has this dispatch from Washington: Governor Scofield arrived this morning accompanied by Adjutant-General Boardman.

"I am here to make such arrangements as can be perfected for the immediate transfer of the Wisconsin troops of the First and Second regiments to their homes," said the governor.

"The experience of the government with detention camps since the return of the soldiers from the front convinces me that the best possible service Wisconsin can give to her soldier boys at this time is to get them home under conditions which will give them the best possible opportunities for prompt recuperation."

"If the war department will give the permit tomorrow we shall have the first regiment on the way to Wisconsin within a few hours and the second soon after it reaches New York as the department will allow."

Governor's Plan For Recuperation.

"I am satisfied," said Gov. Scofield, "that I have a solution of the problem with respect to the return of the troops. We desire that the regiments shall be sent home at once, and instead of having them go to camp in the state before furlough, have them furloughed at their home armories and the muster out work can better be performed there thirty days later after the boys have had the advantage of recuperation at their homes. This will be cheaper for the government and better for the men. The troops will get into shape for muster out much better at their homes than at any camp. I shall submit this plan to the department tomorrow and hope that an order will be at once issued for carrying it into effect."

Gen. Boardman endorses the suggestion and will cooperate with the government in presenting it to the department. If adopted and the order issued for the immediate removal of the first regiment from Jacksonville, Gov. Scofield and Gen. Boardman will go at once to that city and make the trip with the regiment to the state.

It is the impression here that if such a plan has been adopted with reference to many of the troops as they arrive in this country it would have prevented the trouble and dissatisfaction which has resulted from the detention of a number of regiments at camps.

Order For Fourth's Muster Out.

The formal order for mustering out the Fourth Wisconsin was issued today. The furlough for the regiment will be thirty days, and in the meantime Captains Buck and Chynoweth of the regular army, who have been detailed as muster-out officers, will reach the state to perform their duties.

It is the opinion of Governor Scofield and General Boardman that the muster out officers can travel around to the different armories and attend to their duties at less expense to the government than would attend the return of the troops to camp after their furlough.

Regiment Must Wait.

Jacksonville, Fla., Sept. 3.—The regimental convalescents and sick in quarters were examined today preparatory to their departure for Wisconsin either tomorrow or Sunday. The list is not complete but will undoubtedly contain between 150 and 200 patients. Those patients at present confined to the hospital will remain here until the expected train of Red Cross cars arrive.

The work of checking up progresses slowly and ten days will probably elapse before the regiment will be ready to leave.

An attempt was made this morning by some of the officers of the Milwaukee battalion to enlist the entire battalion into the volunteer army for service in Cuba. Shortly after roll-call the men were officially informed that a move was in progress and that they would be given an opportunity to vote on the question at noon. The enlisted men showed their opposition by holding an indignation meeting, and long before the noon hour the officers abandoned their unmilitary project. The officers of the battalion conceived and conducted the affair without the knowledge of Colonel Schadel.

Irrigation Congress Meets.

Cheyenne, Wyo., Sept. 2.—The national irrigation congress was called to order by President J. M. Carey. An address of welcome was delivered by Gov. Richards, who briefly reviewed the agricultural history of the state and outlined the work which the congress might take up of special interest to Wyoming.

Quebec Commission Adjourns.

Quebec, Que., Sept. 3.—The Anglo-American joint high commission, after two hours' sitting Friday, adjourned to meet again in Quebec on the 20th inst. In conformity with the practice adopted at the outset of the proceedings no official announcement was forthcoming of the progress made.

CITY'S POPULATION IS 14,000

Directory Men Say That Will Be About the Figure.

L. E. PARKER, who is in the city working on the new city directory being issued by A. G. Wright, of Milwaukee, says that the present indications are that the population of Janesville will figure close to the 14,000 mark. The directory men's canvases of the city shows that there are about 175 vacant stores and dwellings here. This number, he says, is not a high figure for a city the size of Janesville.

Since his work here two years ago, Mr. Parker says that he notices improvements on all sides and that Janesville is as good a town for its size as any he has seen in his travels.

"There is one thing that we notice here in our work more than anything else," said Mr. Parker, "and that is the fact that nearly everyone in the city is able to speak, read and write the English language. In several of the towns in Wisconsin we have heard of trouble with the foreign element who cannot speak English."

SHIPPERS STILL PAYING

Express Companies Not Yet Prepared to Adm the Stamps

The Janesville express office has received no new instructions as to the revenue tax. Newspapers report that the conference of express company representatives in Chicago decided that the companies would hereafter pay the tax instead of the shipper. This rule has not gone into effect in Janesville as yet, and the companies' representatives here have not been officially informed of any such action.

**Mr. A. C. Wolfe, of Dundas, Mo.,** who travels for Mansur & Tibbatts, Implement Co., of St. Louis, gives traveling men and travelers in general some good advice. "Being a Knight of the Grip," he says, "I have for the past three years, made it a rule to make myself supplied with Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have found numerous occasions to test its merits, not only on myself, but on others as well. I can truly say that I never, in a single instance, have known it to fail. I consider it one of the best remedies travelers can carry and could relate many instances where I have used the remedy on skeptics, much to their surprise and relief. I hope every traveling man in the U. S. will carry a bottle of this remedy in his grip." For sale by Peoples' Drug Co., Milwaukee street.

**Big Loan Company Fails.**  
Topeka, Kan., Sept. 3.—The Kansas Loan and Trust company, lately known as the Trust Company of America, has failed. The liabilities are estimated at \$400,000; assets at \$1,200,000. Inability to meet obligations is the reason assigned for the receivership.

**Wreck on an English Railway.**  
London, Sept. 3.—At Wellingborough railway station, on the London & Northwestern railway, near Manchester, two boys pushed a loaded luggage "troley" on the track just as the express train was approaching at a speed of fifty miles an hour. The train was derailed and fearful scenes ensued. The wreckage of the railway carriages caught fire. The engineer, fireman and two passengers were killed and many others were seriously wounded.

Some time ago, a little bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy fell into my hands, just at a time when my two-year-old boy was terribly afflicted. His bowels were beyond control. We had tried many remedies, to no purpose, but the little bottle of Colic, Cholera and Diarrhoea Remedy speedily cured him. —William F. Jones, Oglesby, Ga. For sale by Peoples' Drug Co., corner East Milwaukee street.

**Dr. J. I. Terry, of Trimble, Tenn.,** in speaking of Chamberlain's Colic, Cholera and Diarrhoea Remedy, says: "It has almost become a necessity in this vicinity." This is the best remedy in the world for colic, cholera morbus, dysentery and diarrhoea, and is recognized as a necessity wherever its great worth and merit become known. No other remedy is so prompt or effective, or so pleasant to take. Sold by Peoples' Drug Co., E. Milwaukee street.

## TWO WARS FEARED.

**Paris Expects Conflict with Germany Over Dreyfus.**

London, Sept. 3.—War between France and Germany as a result of exposures to be made in the Dreyfus case and war between Great Britain and Russia over complications in the far east are confidently predicted by well posted politicians in Europe.

Paris is excited over the disclosures following Col. Henry's suicide and the widest rumors are afloat. The people are demanding a retrial for the prisoner of Devil's Island and the government faces the prospect of war with the Kaiser if this is granted and the whole truth told and a revolution at home if it is refused.

Officers of the French army threaten to resign and tell all they know of the Dreyfus case, and many of the highest men in military circles are implicated in the promised exposures.

No order for a revision of the Dreyfus verdict can be secured until the cabinet meets, and the ministers are now scattered, apparently wishing to keep out of the way for the present.

Zola, from his hiding place, has written Dreyfus' wife congratulating her.

## BATTERY B IS MOVING.

**It Is Called to Springfield—Temporary Quiet Prevails in Pana.**

Galesburg, Ill., Sept. 3.—Battery D remained under strict orders at the armory all day Friday, expecting every moment to be called to Pana. Capt. C. C. Craig has returned from Chicago. At 5 o'clock Gen. Reece ordered him to report at once with the battery and equipment at Springfield, and inform him of the strength of the company. The captain replied he had seventy men.

Pana, Ill., Sept. 3.—At the close of a somewhat exciting day the strike situation is quiet. The strike is still unsettled and trouble may yet result. The strikers are firm and orderly and the operators are apparently determined not to let the miners surpass them in firmness.

## Battles and Diseases.

*This is the story of one who participated in many naval and infantry engagements during the war. From wounds received then he suffered for years, but to-day, rejoices in renewed strength.*

There is a distinctly peculiar halo that invests the being of an old soldier in the eyes of the present generation. The sight of him arouses a feeling of admiration for his brave deeds and heroic achievements.

Among those who have bravely fought was Dr. L. J. Clark, who, when but a beardless boy, heard the tocsin of war sounded.

It fired his patriotic spirit to a fervency that found relaxation only in his realization of fighting in the battles.

To the call of President Lincoln for troops in the latter part of '61, young Clark promptly responded.

There was need of men in the navy, and he joined that service in the mortar fleet of Admiral Porter, which soon after began operations on the Mississippi River.

At the terrific bombardment of the Vicksburg forts, the hero of this story fell on the deck of the Juliette with a shattered arm from a charge of schrapnel.

He lay in the hospital for months, and when he had recovered sufficiently to be moved, was sent to his home at Warren, O.

Though partly incapacitated for active service, his patriotic zeal got the better of him, and when the call for more troops came, young Clark enlisted in a company formed by Capt. Joel L. Asper, at Warren.

It became Co. H. of the 7th Ohio Volunteers and was sent to the Army of the Potomac under General Grant then campaigning in Virginia against General Robert E. Lee.

In a skirmish near Richmond, he was wounded again and was sent to the hospital. He remained there for some time,

but finally recovered, and went home.

Shortly after, he began the study of veterinary surgery, and, when completed, went to Chicago, where he has resided for thirty years, and is now one of the leading surgeons of that profession in the city.

His old wounds began to trouble him several years ago. He grew weak, emaciated and thoroughly debilitated. His friends began to despair of his life.

He was but a shadow of his former self, weighing only 90 pounds, a loss of nearly 50 pounds. He had the best medical attention, but it did not benefit him.

"Finally a friend gave me a box of Dr. Williams' Pink Pills for Pale People," said Dr. Clark. "After taking the pills I was so much benefited that I purchased a half dozen boxes and took them."

"They were of more benefit than the ablest physicians' treatment. By their aid alone, I soon regained my strength."

"I weigh 150 pounds now, and except for injuries that can never be remedied, I am as well as ever."

"I consider Dr. Williams' Pink Pills for Pale People the best remedy I know of to build up a run-down system."

To-day Dr. Clark is a picture of health. He is 59 years old, an active member of Hatch Post, G. A. R., and resides at 4925 Ashland Ave., Chicago.

Many veterans have found Dr. Williams' Pink Pills for Pale People of inestimable value in counteracting the unhealthful effects of army life. All druggists sell these pills and highly recommend them.

# W. F. HAYES, EYE SPECIALIST.

The proper fitting of eye glasses requires careful preparation along two lines. There must be a thorough knowledge of the refractive conditions of the eye. There must also be a complete understanding of the construction of lenses for correcting error and remedying weakness. The optician should have the mechanical skill to properly adjust frames and lenses. He may be ever so capable in diagnosis, but if he is not skilled in the other and equally important branches of the profession his work is of little avail. W. F. Hayes, the eye specialist, has made himself proficient in every branch of refractive work; his experience of the past twelve years leaves no doubt as to his capabilities. Thousands of recommendations from people whom he has fitted to glasses during this time are in his possession and a great unwritten testimonial lies in the fact that former patients return a second and third time to be refitted. Mr. Hayes' connection with The Julius King Optical Co., of New York, (one of the most complete and thoroughly equipped optical manufacturing concerns in the country), gives him an advantage that but few opticians enjoy. A portion of his time is spent in the factory and grinding room, where from 300 to 375 pair of glasses are completed daily and every known refractive defect is corrected. AT F. C. COOK & CO.'S ON SATURDAY AND MONDAY OF EACH WEEK.

## WHAT SOME PEOPLE THINK OF MR. HAYES AS AN EYE EXPERT:

### Judge Bennett Pleased.

I take pleasure in recommending W. F. Hayes as a thorough and competent optician. He examined my eyes, and I am wearing glasses fitted by him. They are perfect in every way.  
JUDGE JOHN R. BENNETT.

W. F. Hayes, the eye expert, at F. C. Cook & Co.'s, fitted myself, wife and daughters with glasses; we are more than pleased. They are satisfactory in every way, and I take pleasure in recommending him as being thoroughly competent.

### Register of Deeds, O. D. Rowe, Is Pleased.

I have been fitted several times to glasses but none have suited me as well as those I bought of W. F. Hayes, the eye expert. My wife was troubled with her eyes until he examined and fitted her to glasses and she is greatly pleased with results. I recommend him to people with eye troubles.

### Sheriff Acheson Talks About Glasses.

A testimonial from a man as conservative as Theodore L. Acheson, Sheriff of Rock county, is of value, not only to the man who receives it, but may be of great value to the public. Sheriff Acheson says of the glasses fitted to him a short time ago by W. F. Hayes, the expert optician, at F. C. Cook & Co.'s: "The glasses fitted to my eyes by Mr. Hayes are the most satisfactory of any I have yet worn. I am able to use my eyes more than has been my custom for some time—and yet I suffer no inconvenience."

### Rev. J. C. Koerner,

Pastor of St. Paul's church, says: Mr. W. F. Hayes, the expert optician, examined my eyes and fitted glasses to them. He understands his business and I have no hesitancy in recommending him as a thorough and reliable optician.

## Every Modern Appliance

Known to optical science is used by Mr. Hayes. Among the latest and most essential instruments is the REFRACTOMETER. By its use the most difficult, stubborn cases can be accurately fitted without the necessity of dopping the eyes with medicine to render them unnatural; the risk of permanent injury is entirely done away with. The RETINISCOPE and OPHTHALMOSCOPE are other modern methods employed by Mr. Hayes. The OPHTHALMOSCOPE detects any diseased condition of the eye, and in no case does Mr. Hayes prescribe glasses where treatment is necessary. People get the benefit of an experienced eye expert in Mr. Hayes; he makes optical work his study and his entire business and therefore understands all the requirements in glasses.

A few moments' talk with Mr. Hayes about your eyes may be the means of saving much pain and bringing relief to your sight.
